## Profile Summary

Computer Science graduate specializing in Artificial Intelligence and Machine Learning, with hands-on experience in Machine Learning, Deep Learning, Generative AI, Agentic AI, LLMs, RAG, Prompt Engineering, MCP, and full-stack development. Skilled in Python, TensorFlow, Scikit-learn, LangChain, LangGraph, FastAPI, React.js, Node.js, PostgreSQL, Flutter, REST APIs, and GCP. Experienced in building scalable, data-driven, end-to-end AI/ML and full-stack applications.

## Education

### SRM Institute of Science and Technology

Sept 2022 – May 2026

*B.Tech in Computer Science and Engineering with a specialization in Artificial Intelligence and Machine Learning*

- **GPA: 8.05**

### SRM Institute of Science and Technology

Sept 2026 – Present

*MBA in International Business*

## Experience

### AI/ML Intern

May 2026 – Present

*C-DAC (Centre for Development of Advanced Computing)*

- Developed 1 MCP server integrating REST APIs, Generative AI, RAG, LLMs, Prompt Engineering, and Agentic AI.
- Worked across 3 cloud platforms—AWS, Azure, and GCP—using cloud computing, Linux, and PowerShell.
- Applied 3 DevOps technologies—Terraform, Docker, and Kubernetes—for scalable AI and cloud workflows

## Publications

### Real Estate Prediction Using ML Algorithms

April 2025

S. Subalakshmi, **A. R. Sreekavin**, Anshika Singh, Jagabattula Saahitha

## Projects

### Predictive Analytics in Cardiovascular Disease

January 2024 – May 2024

- Built Logistic Regression and Random Forest models, achieving 85% accuracy on 10,000+ records.
- Preprocessed 50+ clinical attributes, improving model accuracy by 12% through feature engineering.
- Used 5-fold cross-validation, reducing performance variance by 10% and improving generalization.

### AI-Based Speaker Identification System

June 2026 – July 2026

- Developed a AI/DL speaker identification using ECAPA-TDNN embeddings and SVM classification.
- Processed 7,501 audio samples using MFCC, Mel-spectrogram features, and audio preprocessing techniques.
- Achieved 88.67% accuracy and 88.85% F1-score across 5 speaker classes.

## Technologies

**Languages:** Python, C++, C, HTML, CSS, JavaScript, TypeScript.

**Frameworks:** TensorFlow, LangGraph, LangChain, PydanticAI, OpenAI Agents SDK.

**Libraries:** Pandas, NumPy, Matplotlib, Scikit-learn, Seaborn.

**Developer Tools:** UV, VS Code, Cursor, Jupyter Notebook, Google Colab, Git.

**Cloud/Database:** Google Cloud Platform (GCP), PostgreSQL.

**Web/Application Development:** React.js, Node.js, Google Apps Script, FastAPI, REST APIs, Flutter.
